

In early May, 2007, the ENECON Mid-Atlantic Engineering Team hosted an informative customer event inside Citizen's Bank Park, home of the '*Philadelphia Phillies*'.

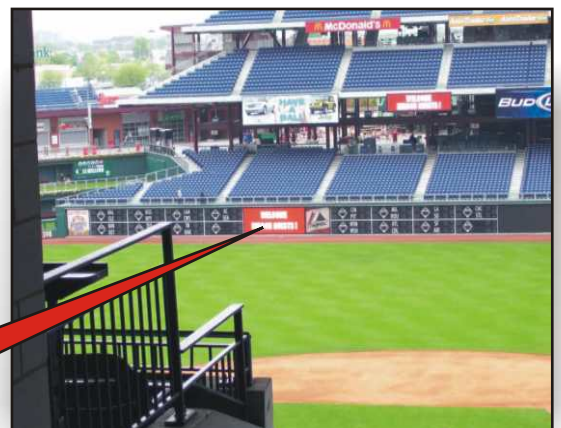

Current and prospective customers from all over the region were in attendance. Their backgrounds and specialities spanning facilities management, engineering and even Naval personnel.

The multi-media presentation delivered by ENECON Mid-Atlantic's Engineering Team covered all aspects of the

ENECON polymer systems product line as well as the latest advances in maintenance and repair technology.

This open forum permitted the attendees to share their ENECON application stories, as well as learn from each other regarding problem solving.

The event concluded with a tour of the field, dugouts and the locker rooms. For those in attendance, this truly was a once-in-a-lifetime experience.
