

Over 45 current and prospective customers attended the recent customer event hosted by ENECON Chile inside one of Chile's premier wine stores. ENECON President, Andy Janczak, and Regional Sales Director, Marco Grande, were on hand to assist ENECON Chile's Peter Otke, Christian Schaffner and their entire team.

The multi-media presentation, including Spanish versions of both **ENECON Worldwide**, as well as the ENECON Power Point Presentation, focused on the latest advances in polymeric maintenance and repair technology.

The open question & answer forum permitted the attendees to share their

ENECON application stories, as well as learn from each other.

Peter also took this opportunity to show the **ENEFLOW** video and then showcase **The Wine Clip**, which is sold at the store. After raffling off several **Wine Clips**, a special wine tasting was held for the attendees.
