

ENECON Hosts Successful Customer Event Aboard The Battleship USS New Jersey

ENECON hosted a customer event aboard the historic battleship USS New Jersey. Over 60 current and prospective customers from all over the region were in attendance.

The multi-media presentation given by ENECON's Mid-Atlantic Engineering Team covered the latest advances in polymeric maintenance and repair technology.

The open forum permitted the attendees to share their ENECON application stories, as well as learn from each other regarding problem solving. Discussions were always lively and productive.

After the formal seminar, the entire group was taken on a tour of the USS New Jersey and given an opportunity to learn about its rich history.
