

ENECON Hosts Unique Customer Event At The Historic Pennsylvania Railroad Museum

A scenic lunchtime train ride through the Pennsylvania Dutch countryside was the backdrop of ENECON's recent customer event. Close to 40 current and prospective customers from all over the region were in attendance.

The multi-media presentation given by ENECON's Mid-Atlantic Engineering Team covered the latest advances in polymeric maintenance and repair technology.

The open forum permitted the attendees to share their ENECON application stories, as well as learn from each other regarding problem solving. Discussions were always lively and productive.

After the formal seminar, the group boarded a vintage train for a scenic ride to view the fall foliage and enjoy a meal in the authentic, turn-of-the-century dining car.
