

Chemical Company Salvages Pump Bases With CHEMCLAD XC

A large chemical processing / manufacturing company located in Western Pennsylvania utilizes a variety of harsh chemicals in its operations. They had tried numerous chemical resistant coatings in the past with limited success. They were looking for a long-term

solution so they asked their local ENECON Dealer for advice.

The Dealer recommended **CHEMCLAD XC** to protect these pump bases. These 'before' and 'after' photos certainly speak for themselves.

Pump base before application of CHEMCLAD XC.

Chemical spill after pump base protected with CHEMCLAD XC.

*Chemical spill washed off pump base.
Note: CHEMCLAD XC is in perfect condition.*
