

**Twin KORT Nozzles  
on Belgian Container  
Ship Repaired &  
Protected Against  
Cavitation Attack  
With FLEXICLAD  
DuraTough in  
Singapore**

These photos illustrate the very successful application of DuraTough DP & DL to a pair of large KORT Nozzles on the O/MV Mighty Servant 2.

The repairs were carried out at the Singapore Drydock

under the watchful eyes of the local ENECON Field Engineer to the complete satisfaction of the vessel's Belgian owners.
